Case Study

Amazon, an American e-commerce and cloud computing company, has been in business for more than 20 years.

Ever wondered how Amazon predicts exactly what consumers want to buy?

Case Study

The Amazon logo, featuring the word "amazon" in a bold, black, sans-serif font. Below the text is a curved orange arrow that starts under the 'a' and points towards the 'n', resembling a smile.

It is due to a simple business analytics that involves understanding patterns of what happened in the past to predict what might happen in the future.
